DETAILED ACTION

This Office Action is in response to the Amendment filed on July 22, 2004. Claim 1 was amended.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Daniel A. Tanner, III (Reg. No. 54, 734) on Friday September 10, 2004.

The application has been amended as follows:

- IN THE CLAIM:

Claim 1 has been replaced by following:

-- A control system for a turbo-charged diesel aircraft engine comprising:

a throttle lever;

a fuel setting device that sets the target amount of fuel supplied to the engine in accordance with the amount of stroke of the throttle **lever**;

a boost compensator that sets the maximum limit for the amount of fuel supplied to the engine in accordance with the boost pressure of the engine;

a fuel supply device that supplies fuel to the engine in an amount equal to the target amount or the maximum limit whichever is smaller;

an operating condition determining means for determining whether the current aircraft operating condition ~~[[is a condition where the desired rate of increase in the engine output power is increased]]~~ **requires a rapid increase in the engine output power**; and

a switching means for increasing the maximum limit set by the boost compensator when it is determined by the operating condition determining means that the current aircraft operating condition ~~[[is a condition where the desired rate of increase in the engine output power is increased]]~~ **requires a rapid increase in the engine output power**.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: None of the cited prior art alone or in combination teaches the claimed combination of a control system for a turbocharged diesel aircraft engine including:

"a switching means for increasing the maximum limit set by the boost compensator when it is determined by the operating condition determining means that the current aircraft operating requires a rapid increase in the engine output power."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thai-Ba Trieu whose telephone number is (703) 308-6450. The examiner can normally be reached on Monday - Thursday (6:30-5:00).

However, the examiner's new telephone number (751) 272-4867 will become effective after the expected changeover date of November 22, 2004.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas E. Denion can be reached on (703) 308-2623. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
